

Art and Activism in the North—What Now!?

An Open Space event by UNION
Hosted by The NewBridge Project
Saturday 31st of August 2019

In our polarised world, how do creative approaches help to challenge and change power relationships? What can we do individually and collectively to achieve political and social change? And what should our focus be in a complex inter-linked world?

Who is it for?

We are inviting people who are passionate about using creativity to make the world a better place (but maybe not completely decided how best to achieve the dream!)

Open Space?

It's a way of organising that is carefully designed to elicit maximum involvement and creativity in a constructive atmosphere. It is also highly flexible so that the content is entirely determined by you—the participants.
