In the first week of May, young artists from across Europe will be visiting other countries as part of the *Fellowship of Questions* project. At Chapel FM Arts Centre we are very pleased to be hosting two artists from Romania and Portugal, Lucian Barbu and Beatriz Cruz.

They have been asked to start their residencies with a question...

Technical stuff:

Between the 01 and 03 of May I will be talking to folks about their first ever drawings. The goal is to fill out as many zines as possible

with these drawings in the time that I have in Leeds.

If you can remember yours, or if you'd like to try yourself I'd be happy to listen.

What is the art of being a woman?

I'm Beatriz and I studied the history of art in Portugal. I see the contrast of the role of women both in society and in the arts, in the past and in the present, seeing that things have changed in certain ways and not in others. Women like Frida Kahlo made themselves heard through their art, showing their abilities in a society dominated by men.

With this project I want to ask again "what is the art of being a woman?"

If you would like to talk with Beatriz and Lucian then come see them at Chapel FM or contact us...

And you can find out more about what they have created and from the residencies across Europe at the special event, both live and live streamed, at Chapel FM at 7pm Saturday 7th May.
